

# Centering<sup>®</sup> group care is the future of healthcare.

Let us guide your site through the transformation.

The change from individual care to group care involves every part of your practice.

**Start Up** is the first phase of the Centering Implementation Plan. Your site forms a Steering Committee representing the major areas of your practice to inform and engage staff, providers, and leadership to make changes that are needed. Your Steering Committee is led step-by-step with the Start Up Workbook and Notebook. These tools will make your transition clear and easy for everyone.

Over a period of 2-3 months, your Centering Steering Committee will meet regularly to plan for the transition using the notebooks and workbook as guides. The

**TIP:**

Sessions in the notebook and workbook are color-coded by topic for easy reference!

activities for each of the 9 sessions are designed to take one hour. This is a suggested timeline, you will work through the sessions at your own pace.

Your Centering consultant will stay in contact with you and provide guidance and support for your Steering Committee's work. During an on-site visit, your consultant will discuss in more detail each topic to make sure that your practice is ready.

## Start Up Sessions:

- 1:** Creating your Steering Committee
- 2:** Building a Shared Vision
- 3:** Patient Enrollment
- 4:** Engaging Leadership
- 5:** Creating your Centering Space
- 6:** Goal Setting and Evaluation
- 7:** Financing and Budgeting
- 8:** Creating your Centering Schedule
- 9:** Billing and Reimbursement

Centering consultants guide your transition

We're here for you every step of the way!

Questions? Contact your Centering Healthcare Institute representative.

**Centering consultants** are healthcare professionals and experts on the Centering model and system redesign. They understand the variations in clinical care settings and can help identify creative solutions to meet the unique needs of your practice. They can also connect you with other Centering practices for networking and sharing around common needs or challenges.

Your customized **Centering Implementation Plan** will give you all the tools you need to become a sustained Centering practice.
